Summary

I am a UX professional with multidisciplinary experience across web development, user research, project management and facilitation. I value continuous learning, collaborative working, and user-centred environments and aspire to explore all aspects of User Experience and Service Design with likeminded people.

Experience

UX Researcher, Outlandish — Jun 2017 - Nov 2017

- * Researched applications ideas, diagnosed the growth potential, and provided strategic guidance to a young network of digital cooperatives called CoTech.
- * Prepared and conducted my own research plan utilising secondary research, contextual enquiries, interviewing, surveying and usability testing methods.
- * Demonstrated negotiation, empathy and synthesis skills in identifying key needs and problem areas from data across 30 different organisations.
- * Reported my findings at the planning meeting for the network's Annual General Meeting and attended the AGM to represent my insights.

Programme Facilitator, Founders & Coders — Nov 2016 - Jun 2017

- * Leadership and business development role facilitating the programme of one of London's leading web development bootcamps.
- * Co-authored, maintained, and main contributor to the community's open-source curriculum, used to build campuses in Nazareth & Gaza.
- * Innovated the service design of curriculum planning and internal processes, taking a user-centred, validated learning approach.
- * Co-designed and delivered weeks on node.js, back-end frameworks, and UX design sprints covering design thinking, user research, rapid prototyping and usability testing.
- * Facilitated curriculum planning and weekly agile ceremonies with mentors & students. Provided support to mentors & pastoral care to students.

Full-stack Web Developer, Founders & Coders — Aug 2016 - Jun 2017

- * Built Web Applications, MVPs and Prototypes in a start-up agency environment for: the Anna Freud Centre, CAST, SaferTogether, Worthwhile and Downing LLP.
- * Active in the mental health digital sector by facilitating regular hackathons, building and project managing resulting MVPs and running training workshops on design thinking for the Anna Freud Centre.
- * Facilitated design sprints for CAST's 2016 Digital Fellowship programme, as well as for the Anna Freud Centre and NHS Digital.

References

I have gained work experience in different temporary administrative roles to fund my travelling and transition into software development. References available upon request.
